

## **National Board Certification**

Barbers Hill ISD encourages and supports teachers seeking National Board Certification. Barbers Hill teachers who hold National Board Certification earn an annual stipend of \$5000 while teaching in the area of the certification.

The district supports teachers seeking the National Board Certification by providing information and cohort support facilitated by current National Board Certified teachers. The district also advances ½ of the cost of the Certification to teachers after proof of payment. The advance is charged against the stipend once teachers obtain the certification.

In the Spring of each year, a new cohort group is established. All teachers who have completed one year of teaching in Barbers Hill are invited to attend an informational meeting.
