

INSTRUCTIONAL TECHNOLOGY

Summer Professional Development Training

Adobe InDesign Training

Learn how to quickly create clean, dynamic documents. The class will cover creating a document from scratch, entering text, formatting, page-layout design, adding graphics, and printing. Whether you are new to desktop publishing or an experienced user converting to Adobe InDesign, this class is for you.

Instructor: Marcy Kay Harris

Session #643538

June 15, 2010 8:30-3:30 p.m.

\$80

Texas Math and Science Diagnostic System Training

Use the Texas Mathematics and Science Diagnostic Systems (TMSDS) to assess student understanding of the Mathematics and Science TEKS. This online system allows teachers to administer pre-written benchmark tests or build their own by grade level, TEKS objectives, or level of difficulty. Features of the system include: No cost access and training, nearly 60,000 approved test items, online and paper examination delivery, immediate reporting, detailed item analyses, and aggregate state reports.

Instructor: Diane Edgar

Session #643597

June 16, 2010 8:30-11:30 a.m.

\$0

Adobe Training Series: Presenter

Use the power of Adobe Flash to turn a run-of-the-mill PowerPoint presentation into an engaging, high-impact presentation using Adobe Presenter. Participants will learn how to create on-demand, interactive presentations that include audio, video, narration, and simulations.
