

Installing ADM on your desktop

Copy the install folder:

Open My Computer
Open T:\ADM Data folder
Right-Click on ASE Run-time enabler folder
Click Copy
Right-click anywhere on your desktop
Click Paste

Install Run-time

From your desktop, open ASE Run-time enabler folder
Click on Setup (computer icon)
Click Next and finish

ADM is now installed on your computer. You have full access to the ADM Data folder on the Admin server. Enjoy!
