

**Technology Department
9600 Eagle Drive
Mont Belvieu, Texas 77580**

Dear Parent/Guardian of **Barbers Hill Middle School and High School** Students:

In our 13th year in the 1:1 program at Barbers Hill, students will have access to school owned Chromebooks. We are excited to provide these tools to ensure our student's success here at Barbers Hill ISD. These tools will also prepare students with the knowledge and skills of global collaboration, creativity and critical thinking needed for the work environment in the 21st Century.

Please note the following:

- The annual technology usage fee is \$25.
- Students will have access to classroom sets of Chromebooks during school hours.
- Students will have the opportunity to check out a school owned device for use if needed.
- Please read through the Student Technology Handbook carefully with your child. Be sure that both you and they understand the guidelines for this program.
- BHISD has Internet filtering software on all school owned devices. Filtering technology coupled with good decision making from your child will result in a great Internet experience while at school.

The Student Technology Handbook described above is available online by accessing the technology page on the www.bhisd.net website.

I have access to the Internet and will read the Student Laptop Handbook and understand the conditions of the program.

I prefer a hard copy of the Barbers Hill ISD Student Laptop Handbook.
