BRANDED

WITH

EXCELLENCE

A Tradition of Excellence . . . by any measure

Superintendent's Welcome

Keep the Change . . . please

I just walked on our new artificial grass field that voters overwhelmingly approved last spring. I must admit a partiality for real grass, but it's easy to get excited about the new.

We did not waste any time acting on what the voters approved in our recent bond election. The changes will allow Barbers Hill to maintain the high standards that have been our hallmark since our very inception.

We will be breaking ground relatively soon on the new buildings that will create different grade configurations from what we have now. Even though the completion of the buildings is years away, we are determined to prepare for these changes in a way that does not allow for any reduction in the ingredients that make Barbers Hill the best school district in the state.

While I'm on a bragging note, we recently received news that our School Board is recognized as the School Board of the Year for all of Region 4 (Houston and surrounding areas). It is a first for our district and it truly is a distinction to be proud of. Our Board is the primary reason that our district has *not* experienced the financial meltdowns it seems most districts dealt with this past year.

There are always more things to brag about than space permits, but another one that we are especially proud of is that last year, for the second year in a row, every senior at Barbers Hill High School passed the state-mandated test. Few if any districts can make such a claim and it says volumes about our district's conviction to set and achieve high standards.

Yes, we are "changing" with growth at Barbers Hill, but we are not diluting our brand. The grass may now be artificial, but the pride is genuine.

BHISD VISION STATEMENT

Barbers Hill ISD envisions academic excellence characterized by goal-driven, college/career ready graduates who are responsible, accountable, contributing members of society.

WELCOME BACK TO THE HILL

EAGLE LAUNCH DATES

Meet your teacher. Bring your supplies. Get ready to soar!

Kindergarten Center

Thurs., August 18, 6:30 p.m.

Barbers Hill Primary

1st Grade:

Tues., August 16, 5:30 - 6:30 p.m.

2nd Grade:

Wed., August 17, 5:30 - 6:30 p.m.

Barbers Hill Elementary

3rd Grade:

Tues., August 16, 6:30 - 7:30 p.m.

4th Grade:

Wed., August 17, 6:30 - 7:30 p.m.

Barbers Hill Intermediate

5th Grade:

Mon., August 15, 7:00 - 8:30 p.m.

6th Grade:

Mon., August 15, 6:00 - 7:00 p.m.

Barbers Hill Middle

7th Grade only:

Thurs., August 18, 6:30 p.m.

Congratulations, Barbers Hill ISD Board of Trustees

TASA REGION 4 HONOR BOARD OF THE YEAR

Barbers Hill School Board was named the Region 4 Honor Board of the Year by Texas Association of School Administrators in July. The selection follows a rigorous review of many facets of our district, including Board policy and procedures, district educational performance on TAKS tests, educational improvement projects, ethics, district finance and harmony as a Board.

Barbers Hill was an Exemplary district in 2010-11, with four Exemplary campuses and one Recognized campus. Other highlights from 2010-11 that were considered in the selection process include:

- 100% of seniors passed the TAKS test and were able to graduate
- Gains in TAKS scores were seen in nearly every subject
- Barbers Hill constituents gave the district a vote of confidence by passing a \$75 million bond addressing growth
- BHISD earned a F.A.S.T. financial efficiency rating of 4.5
- BHISD earned a AA bond rating from Standard and Poors
- BHISD remained one of the top-paying districts for educators in Texas

The award allows the Board to continue to the state-level competition, where they will compete against 19 school districts from the other regional service centers in Texas. Five finalists will be named in August, and one of those will be selected as the state winner and recognized at the TASA/TASB convention in September. Congratulations, Board members! You're the best.

Quotable

"Our Board reflects a variety of interests and convictions, but we have a common goal to provide the best education possible for our kids, to provide a rewarding career for staff, and to demonstrate fiscal responsibility and integrity to our community."

*Fred Skinner
BHISD Board member*

2011 Distinguished Alumni

Ernie Battle

The Barbers Hill faculty and staff will recognize Ernie as our 2011 Distinguished Alumnus at District Convocation on Friday, August 12, 2011. In its third year, the Distinguished Alumni program recognizes graduates of Barbers Hill ISD who have made lasting contributions to the district, the community, and society as a whole.

Barbers Hill ISD

2011 Texas Accountability Ratings

Under the new, more stringent rating system implemented in Texas this year, Barbers Hill ISD earned high marks and in many cases, higher scores, than last year. Our 2011 ratings:

Barbers Hill ISD	Recognized
BH High School	Recognized
BH Middle School	Recognized
BH Intermediate	Exemplary
BH Elementary	Recognized
BH Primary	Recognized

We are extremely proud of our students and staff for their continued pursuit of excellence in education. Highlights of 2011 TAKS testing:

- For the second consecutive year, 100% of seniors passed the TAKS test and were able to graduate.
- Every campus met "Adequate Yearly Progress" standards (federal standards for annual improvement in test scores).
- Barbers Hill ISD saw improvements in math scores across the district (93% passing in 2010 and 95% passing in 2011 in the All Students category).
- Apples to apples: If the same measures used last year to determine ratings had been applied this year, every campus in Barbers Hill would have been exemplary.

Principals of the Year

Elementary
Principal of the Year

Lisa Watkins

Campus: Kindergarten Center

Grew up in : Baytown, TX

Years in education: 27

Years at BH: 12

Graduated from:

Bachelor's degree – Texas A&M,
Class of 1984

Master's degree – University
of Houston Clear Lake, Class of
2000

"I have the greatest job in the world! It's a joy to work with so many people who are committed to children, to the community, and to the future."

* All games begin at 7 p.m.

Susan LeBlanc, shown above leading second-graders through their garden at Barbers Hill Primary School, has been School Nutrition Director at BHISD for 19 of her 22 years in the profession. Gardening is a newer hobby for Susan, but helping students enjoy healthy foods has been a career-long goal.

primary, primary, How does your Garden Grow?

A seed of an idea began in 2009 in the mind of School Nutrition Director Susan LeBlanc. She called friend and second-grade teacher Linda Rusk to bounce the idea around.

“What would you think about working together on a strawberry garden with students?” LeBlanc asked.

Rusk thought it was a great idea, and in January 2010, the two led Linda’s class at Barbers Hill Primary in planting a prolific strawberry patch near the classroom.

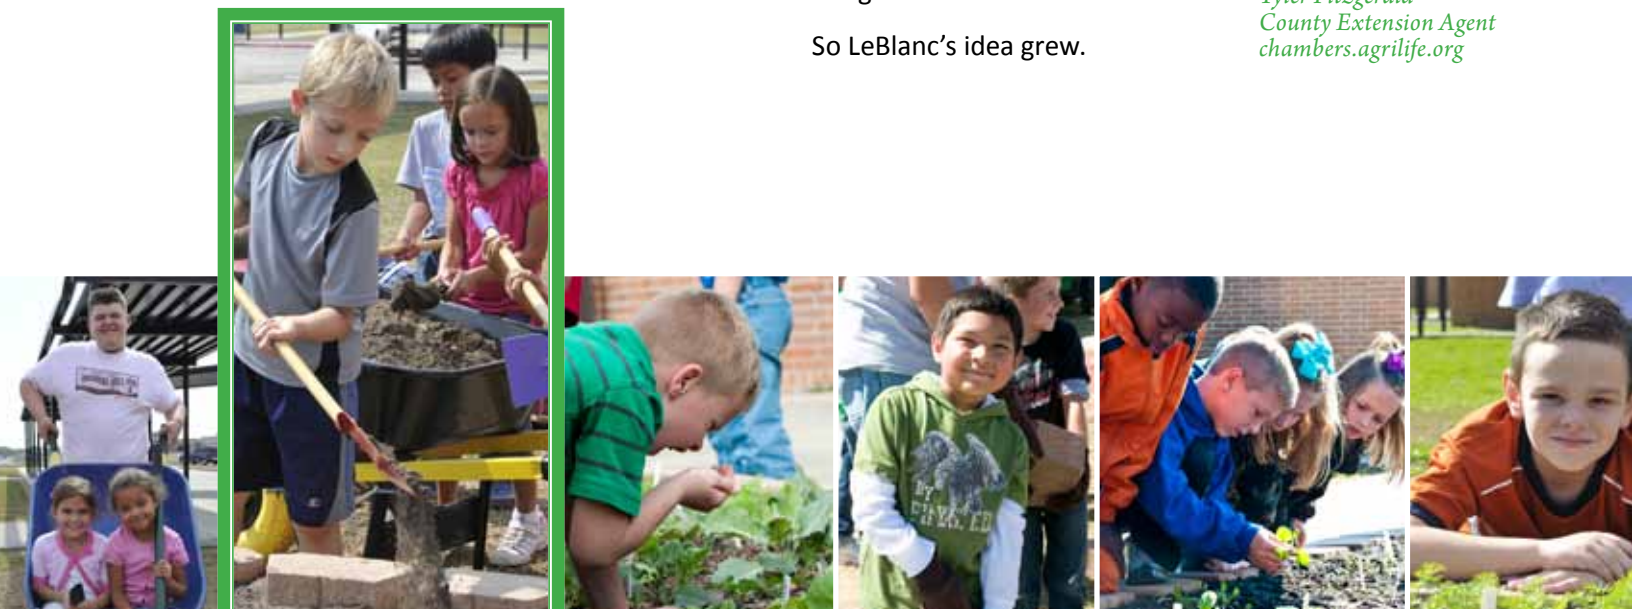

“I really didn’t know much about growing strawberries,” LeBlanc laughed. “But I figured the students and I would learn together.”

The only problem with the garden? It was too small. Every student who passed it and many teachers also wanted a piece of the green action.

So LeBlanc’s idea grew.

“With the downturn in the economy, there’s a push for people to go back to gardening. These students can learn how to do that, get excited and go home and tell their parents about it. Gardening is a great opportunity for families to spend time together.”

Tyler Fitzgerald
County Extension Agent
chambers.agrilife.org

Radish mice are the best!

She developed a budget that would encompass a much larger garden: planting in the fall, carrots, lettuce and broccoli in winter, and tomatoes, corn and watermelon in spring. Each second-grader would have a small plot. She received the go-ahead from administrators and began making phone calls.

LeBlanc's husband, Tim, who works in BHISD Technology Department, drew the garden plans, allowing plenty of space for students and equipment. By fall 2010, Maintenance and Operations had helped prepare the foundation, and trucks arrived loaded with soil and stones.

High school Ag students paired with second-graders (this time the whole grade level) in October to help with setting up the raised beds and with planting. Senior Ag intern Taylor Lewis spent hours hauling and leveling dirt and later helping with clippings and composting, another favorite activity of students.

"The kids have been so excited about this project," said LeBlanc, who won a Goldin Foundation Award in 2011 for the student garden, after a nomination by BH Primary teachers. "I knew students would enjoy the hands-on experience, but it has been amazing. They treat me like a celebrity!"

The compost barrel was a fun way to learn organic recycling. After students thinned seedlings and pulled weeds, the clippings were put into the compost bin and groups took turns spinning it.

LeBlanc's goal was to allow students to experience the life cycle of fruits and vegetables, and to help them gain an appreciation for foods they might not otherwise try. But what bloomed inside students was even bigger than that. One student cried when his plant hadn't grown, and others helped him find where rains had washed his seeds from their original spot, and helped him re-plant the shoots. Another student was absent on planting day,

and a friend said, "I know an empty spot you can use."

And one student remarked as he harvested carrots in winter, "This growing carrot stuff is hard work." When LeBlanc asked what was the hardest part, he said, "Waiting for it to grow!"

"What a life lesson that is," said LeBlanc, "Delayed gratification!"

Students learned so many things about gardening, math, weather, and science, besides enjoying their own fresh fruits and vegetables to eat, LeBlanc plans an expansion this school year.

Strawberries will return to the Primary School plot, with special protection this time from critters. New smaller plots will be dug and planted for Life Skills and seventh-grade science students at other campuses. And the sunflowers will be planted earlier. "Our first sunflower bloomed two weeks after students went home for summer," LeBlanc lamented. "Those will definitely go in earlier in February!"

BHISD Cafeterias Go Green

School Nutrition Director Susan LeBlanc replaced disposable cups and trays with reusable varieties at the Intermediate, Middle and High School last year, reducing cafeteria consumption of styro-foam products by 40%. This year, she plans to increase student awareness and use of plastic bottle recycling bins.

Assistant Superintendent of Curriculum & Instruction

Sandra Duree

We have much to celebrate in Barbers Hill ISD! Our district once again achieved state honors and has been named a Recognized district. Individually, our campuses also received state honors. Barbers Hill

Intermediate met the criteria to receive the Exemplary distinction, while all other campuses met the criteria to be identified as Recognized. In addition, all seniors passed the Texas Assessment of Knowledge and Skills (TAKS), and the district met the goal of a 100% completion rate for the class of 2011.

The Curriculum and Instruction Department has been busy this summer working to further the tradition of excellence as we transition to a new state assessment. Approximately 100 teachers in the four core-content areas have been analyzing the new standards, writing curriculum, and making curriculum revisions to prepare for the new STAAR test (State of Texas Assessments of Academic Readiness). A team of principals,

well prepared for this assessment and for success in subsequent grades.

The new STAAR test will replace TAKS this coming year for grades 3-9. It will be more rigorous than previous assessments and will also be a timed test. Parent meetings will be held this fall to inform those interested in the upcoming changes.

Barbers Hill ISD is branded with a tradition of excellence. We have a strong past, a bright future, and a common goal of ensuring success for all students. The

Principals and Asst. Principals gathered with Sandra Duree in July to learn about the new STAAR test.

Curriculum and Instruction Department is committed to equipping teachers with the tools, information, and materials necessary to achieve that goal. In all that we say and do, excellence is the standard.

Curriculum and Instruction Department Team Members

department chairs, team leaders, and curriculum writers are working together to review the testing standards and will present this information to teachers during the teacher in-service week. Our goal is to ensure that our students are

Assistant Superintendent of Technology

James Banks

What Does The Future of Technology in Education Look Like?

Over the last seven years, we have worked to take educational

technology at Barbers Hill ISD to new levels. All teachers now have access to netbook, notebook, personal computers, and in some cases a combination of the aforementioned. We have also made great strides in adding video projectors, document cameras, and portable smart board technology in as many locations as possible.

Plans for the future also include key swipe technology for all doors district wide, the expansion of the current digital surveillance system, and an upgrade of the district's network to increase speed. All of these efforts are designed to keep pace with current technologies and to be prepared for whatever the future may hold.

Social networking, Ipad technology, and digital curriculum integration are also looming on the horizon as new educational tools that can address student learning. This is certainly an exciting time for the world of technology!

Assistant Superintendent of Educational Services

Dr. Gayle Woodall

Barbers Hill ISD is "Branded with Excellence!" This is in great part due to our never-ending pursuit of it. Going the extra mile, continuing to learn and grow and a commitment to improvement are just a few of the ways we pursue excellence. The summer of 2011 was no exception. Summer academic programs served over 200 students during the months of June and July. Computer camps, athletic camps and strength and conditioning

Summer English Language Learners class with Ms. Villareal.

programs kept several hundred others focused and fit. Teachers, administrators and support staff participated in professional development sessions throughout the summer, while many others continued their learning in graduate school and off-site learning sessions. This focus on continuous learning for continuous improvement is what sets us apart.

As we begin a new year, we encourage you to "ride for the brand" and be a part of the excitement and excellence. Volunteer in one of our schools or student organizations. Consider being a mentor and making a difference in a student's life. Follow us online, on Twitter or in the local media. Attend programs and extra-curricular competitions and witness our Eagle spirit and determination to excel in every endeavor. Share our pride and enjoy the "ride!"

Assistant Superintendent of Planning and Operations

Stan Frazier

District facility improvements and maintenance projects have been numerous this summer in preparation for another excellent school year. These include the opening of a new Middle School science wing, Middle School HVAC upgrades, new Primary School fire sprinkler system, as well as the athletic upgrades at Eagle Stadium and the Auxiliary Field. In addition, to keep the buses rolling, the Transportation Department mechan-

Work began on the Auxilliary field restrooms and concession stand in early June.

ics replaced engines, changed oil and repaired leaks, replaced fuel pumps, repaired seats, checked and replaced tires and will have completed inspections for each bus. For summer school, 175 students were transported with 9 bus routes. Routes are being updated for the 2011-12 school year and will be posted on the school website on the Transportation page in August. Also, digital cameras were ordered for the remainder of the bus fleet and installation should begin before school starts.

In the Operations Department, the summer floor team has been stripping and waxing all floors, including the Middle School new science wing and all new district flooring installations. They have also refinished six district gym floors. The summer team

cleaning crews have provided custodial services for all offices, summer school, and are in the process of completing deep cleaning on all campuses. The district locksmith has been repairing and replacing district locks and keeping inventory of all returned and issued district keys. Finally, the district warehouse has received and inventoried approximately 3100 packages to date.

Maintenance employees have made district improvements with numerous painting projects, repairing water leaks, replacing sinks and faucets. The HVAC technicians have been working on chillers, pump motors, and other equipment, as well as cleaning the chillers and coils. Our electricians have helped contractors locate and access existing electrical lines for construction projects. A multitude of ballasts and lamps have also been changed in preparation for the new school year. Grounds employees have prepared another practice field at the High School, re-commissioning the Eagle Stadium sprinkler system and turf to accommodate the increasing number of participants. All campus grounds are being prepared and maintained for another excellent school year.

Assistant Superintendent of Personnel

"Branded with Excellence".....what a great theme for the upcoming school year! The "BH" brand consistently produces outstanding students who receive an excellent education from

Barbara Ponder

our great teachers and staff. Our brand resides within the hearts and minds of our community, and communicates our commitment to the students in our district.

The Personnel Department is proud to play a role in continuing our tradition of excellence by hiring the best and brightest candidates. There will be 23 new professionals and 2 new paraprofessionals joining the BH Family this school year. We welcome each of them and know they will quickly make a positive contribution to the success of our district. We also want to acknowledge our school board members for their continued support in allowing us to recruit and retain such outstanding candidates.

Once again we can report that 100% of our teachers are Highly Qualified in accordance with NCLB (No Child Left Behind) standards for the 2010-2011 school year. Additionally,

A fun Hawaiian moment during Leadership Academy for Becky Johnson, Director of Operations, Barbara Ponder, Asst. Supt. of Personnel, and Lisa Watkins, principal of Barbers Hill Kindergarten Center.

BHISD Leadership Team during training this summer.

100% of our teachers received high-quality professional development in accordance with NCLB standards. We congratulate all of our teachers for meeting and exceeding the level of quality required at the local, state, and national levels.

Several administrative positions have been filled. At Central Office, we have three new faces; Becky McManus has moved from the Intermediate School to be the Director of Finance, Julie Heffner joins us as the Coordinator of Secondary Curriculum and Instruction, and Carla Rabalais is our new Public Information Officer. At the High School, we have three new administrators. Paula Jackson and Brett Lalor will be Assistant Principals, and Kim Martin joins Charlotte Mitchell as a second Academic Dean of Curriculum and Instruction. At the Intermediate School, Elizabeth Filer will replace Becky McManus as the Assistant Principal.

Some of our administrators have new assignments this year. Dennis Wagner has moved to the Elementary to be the Assistant Principal and Robin Waller is the new Assistant Principal at the Primary School. She replaces Tena Burgess who is now the District Truancy Officer and Coordinator of State and Federal Programs.

We congratulate and welcome all our new employees and look forward to the success that awaits faculty and students in the coming school year. Let's "brand" excellence in all that we do during the upcoming school year with the famous Barbers Hill pride and commitment.

BHISD proposes a reduction in Tax Rate

Barbers Hill ISD voters overwhelmingly approved a \$75 million bond referendum in an election held on May 14, 2011. The election consisted of two separate bond propositions.

John Koonce

Proposition One for \$65.2 million passed with a 79% approval rate and will pay for three elementary school buildings and their furnishings.

Proposition Two for \$9.8 million was approved by 78% of the voters and will pay for an internal campus road, classroom additions for various fine arts programs and improvements to athletic facilities. There were 1,109 total votes cast in the election.

Even though BHISD predicted a 1.6% increase in taxes each year for four years to pay for the two propositions, the school board is proposing a slight reduction in the tax rate for taxpayers in 2011 from the \$1.3299 rate paid last year. Not only will taxpayers realize a small savings, but by lowering the amount of tax revenue, BHISD also reduces the amount of recapture that is paid to the state through the Robin Hood plan.

In June 2011, a \$350 million Property Value Limitation Application was approved by BHISD with Lone Star NGL for the construction of a new fractionator unit at their Mont Belvieu industrial site. The new unit will enhance the tax base of BHISD in the future, and it reflects continued capital investment in our area of the state. The facility will employ hundreds of construction workers and over 20 full-time employees once it is fully operational, which contributes to the economic growth

of our community. Other companies in the area have contacted the district with intentions to expand their fractionation facilities as well and are expected to request limitation agreements from BHISD in 2011.

BHISD has again received the state's highest rating of "Superior Achievement" under T.E.A.'s financial accountability rating system ("FIRST"). BHISD has maintained a "Superior" rating since the system was established by T.E.A. in 2002. A public hearing to discuss the district's rating will be held on September 26, 2011 at 6:30 p.m. in the C. T. Joseph Conference Center.

Great Leaders
and a
Great Community

Spur us
to Excellence!

Your Bond Dollars at Work

The visitor side of Eagle Stadium received upgrades this summer thanks to bond support in BHISD.

Four new Science classrooms at Barbers Hill Middle will welcome students on August 22nd.

Artificial turf approved by voters in the May bond election was installed this summer at Eagle Stadium. The installation process required many steps ... but the results bring a lot of Eagle Pride!
